Student Venture Capital

The Student Venture Capital program is designed to encourage students to develop and run their own enterprises individually, or in partnership with fellow students. Interest-free loans of up to \$1,000 are available for each project. These loans must be repaid by October 31, 1979.

Student Venture Capital, Program 0320 of the Ontario Youth Secretariat's Experience '79 summer employment for students, is now in its sixth successful year. It has progressed from 14 projects in its first year to 97 projects in the summer of 1978. Local Chambers of Commerce cooperate with the Ontario government to help participants improve their proposals and to recommend approval of those that have the fundamental ingredients of success.

The Royal Bank of Canada is an active partner in the promotion and operation of Student Venture Capital. The Bank provides interest-free bridge loans as soon as projects are approved so that eager students can begin work on their projects with no delay. Additionally, a Royal Bank financial liaison officer provides banking

and financial advice. This liaison officer, together with the Student Venture Capital '79 program manager, are available during the summer to give whatever aid is needed. Students operating projects will forward monthly reports of their financial situation to the program manager, and are expected to seek advice and help when needed.

Personal involvement and dedication are the basic ingredients of success! Experience clearly shows that labour-intensive projects such as farming, woodcutting, painting, garden and house maintenance are more likely to succeed than those that require expensive rental accommodation, inventory, machinery, or vehicles. Theatre projects, dances, craft production and sales, and food-related enterprises often incur legal, health and other technical difficulties, unless the projects are well researched in advance.

If you will be returning to school full-time, are 18 years of age or over, and are willing to work conscientiously at your business, then Student Venture Capital may be just the program for you! Do something you enjoy! Reap the rewards of industrious independence, and at the same time earn enough money for your return to study in the fall.

You will not be alone in the Student Venture Capital '79 program; the Ministry of Colleges and Universities, the participating Chamber of Commerce nearest you, the Royal Bank of Canada and other independent business people are eager to help.

Student Venture Capital kits may be obtained by completing and mailing the attached form.
